

TOYGER REMOTZ

Instructions for use

Parts list

Assembly steps

Important notes

- To play TCG online, you'll need video call apps such as ZOOM, SKYPE or DISCORD. While playing, we suggest checking your smartphone's battery from time to time.
- The weight capacity is approximately 600g, so please note that the arm may bend slightly downwards if it exceeds.
- Depending on the smartphone model, the edge of the clip may be slightly reflected and the view may be slightly narrowed.
- Since the magic clip uses a special lens, the reflection of light inside may cause the so-called 'mirage' phenomenon. This may vary from slightly visible to almost non visible depending on the camera setting position, clip attachment, angle, lighting, card color, playmat color, etc., and the location and size of the 'mirage' may vary. While this shouldn't be a problem for a normal remote gameplay, please note that it may happen.
